### Did You Know?

- \* Once a church’s attendance approaches an 80% seating capacity threshold, growth slows. Church growth experts say if no plans are in place to address growth, attendance will gradually decline. Our current attendance average is at 79% of our seating capacity.
- \* Our own history shows that new space spurs attendance growth. We were growing at a 1% rate in 2003. When opening the current auditorium in 2004, attendance grew by 22%.
- \* Our debt has decreased from owing almost \$2.75 MM in 2015 to our current debt of less than \$800,000. At our current giving rate, this debt could be paid off fully in the next 2 years.
- \* Meeting our Brighter Together goal of \$9 MM allows us to maintain a balance between what we may borrow and then to meet continued existing and expanded ministry needs as well as domestic and global outreach and missions.
