

PREPARING FOR COMMUNION AT HOME

We celebrate with communion on the 1st and 3rd Sunday of each month. The Lord's Supper is one of the ways that God extends forgiveness and gives us life. Jesus told us to do this often in remembrance of me and we encourage our members to virtually commune together when you can't be together on campus.

What to do prior to Communion Sunday:

- Get together bread and wine. If you would like to make your own unleavened bread, [try this recipe](#). Using wine or grape juice are both appropriate.

What to do on Communion Sundays:

- Logon to our [Facebook](#) or [YouTube](#) channel for a live stream of our services at 8am, 9:30am and 11am as we set the tone for our Lord's Supper experience.
- After the Pastor's invitation, share communion with one another. If you would like to use words that add to the experience, use these simple words, "take and eat the body of Christ" and "take and drink the blood of Jesus".
- If you have children that have not received their first communion, you can use a simple blessing such as "may the love of Jesus fill your heart and mind."
