

FOR YOUTH DEVELOPMENT®  
FOR HEALTHY LIVING  
FOR SOCIAL RESPONSIBILITY

Dear YMCA Members, Staff, and Friends,

We have been amazed by the outpouring of support and encouragement received from our community. The support is inspiring to our staff who have been working long hours to modify our work and adapt to the changing environment.

To the many friends who have asked, "How can we help?" First, please pray for our community, our healthcare providers, our first responders and those supporting people in critical jobs.

For this period of disruption please retain your YMCA membership, and if you are not a member please consider becoming a member. Your membership fees allow us to execute on our cause driven mission. In the past couple of years we have come so far as a Y community, a facility, and resource for Williams County. You have been instrumental in making our Y more impactful. Please stay with us during this time as we work together to keep the momentum going for you and this wonderful community.

If you have the means and the passion for our work, please consider donating to our annual campaign. The annual campaign dollars provide some of the funding for the many YMCA community outreach programs.

It is a privilege for our family to live in such a caring and charitable community. Thank you for your generosity and your overwhelming words of encouragement.

Sincerely,

YMCA Board of Directors & Staff
