

Minute To Win It!

Fun family game where you take household items and turn them into challenges!

Instructions

This game will have different challenges/levels.

Keep score for competition or just play for fun!

Each “challenge/level” you will have one minute to complete. You can replay levels to try to beat your best score.

Suggestion is to go youngest to oldest and try a “practice round”

(please feel free to send us photos & feedback!)

I hope you guys enjoy it! - Ashley Shively

Level #1 Rubber Band Shoot-out

How many rubber bands can you shoot into a shoe box? Put a masking tape line on the floor for players to stand behind. Adjust the line based on age. Cut a hole in the top of a shoe box and stand it up on a tray or coffee table. This is fun for any age!

Level #2 Penny Tower

How many pennies can you stack in a minute? It's harder than it looks!

Level #3 Sock Toss

How many pairs of socks can you toss into the laundry basket in one minute? Again, use a tape line on the floor and move it back for older players. (20 pairs is a good number) fold socks together as pairs with one around the other, and they make a good "ball" for throwing

Level #4 Balloon in the Air

Use a fly swatter to keep a balloon from touching the ground for one minute. Kids will enjoy trying to beat their best record on this one!

Level #5 Cup Towers

How many cups can you stack in a minute? You can count the score by number of cups stacked or by number of levels tall.
