

## Sunday Orbit at Home August 5th, 2020

### Life App of Creativity- Imagining what you could do because you're made in God's image.

*Creation (Genesis 1-2:3)*

*There's no limit to God's creativity.*

#### Limitless Creativity

- Give participants a blank paper and pencil.
- Read the list below and encourage your family to write or draw an example of something that fits in each category.
- Compare answers for each category. If several people thought of the same idea, encourage the group to think of other examples that could also fit in that category.

*-A color*

*-Something bigger than a car*

*-Something smaller than a dime*

*-Something chewy to eat*

*-Something that makes sound*

*-Something slimy*

*-Something used to move things*

*-Something fuzzy*

*-Something squishy*

*-Something hot*

- Affirm your deep thinkers, your creative thinkers, your quick thinkers and point out there's no limit to God's creativity!

#### Table Talk

- What part of God's creation do you want to see someday?
- What questions do you have about the way the world began or how people were first created?
- Why do you think God created the world in the order He did?
- What does it mean to be created in God's image? What characteristics and qualities do we have that God also has?
- Why do you think God chose to create us in His image?

#### Prayer

- Pass a hand mirror around your group. As each person looks in it say, "Thank You, God, for making (insert individual's name) in Your image."
- Pray:  
**God, You are great!**  
**We can't even understand how great You are!**  
**When we look around at all the things You made, we can see there's no limit to Your creativity.**  
**Thank You, God, for making each one of us in Your image.**  
**Please remind us every time we look in the mirror that we are made to reflect a bit of You to the world. Amen.**
