

Questions for Huddles

Part of deepening our relationship with God is to pay attention to movements of God in our day-to-day lives. Reflecting on our week together by asking and a few questions will help focus our attention to how He is always with us.

Where did you see God this week?

Yes, God is always there and with us! Can you think of a specific time and place this week where you felt his presence, saw Him come through for you, or especially were encouraged by the reality that he is for you/with you?

Examples: A beautiful sunset that reminded you of how big God is; a friend showing up at the right time to give you some encouragement in something difficult; a truth you are learning about who God is through scripture; a reminder of God's faithfulness, etc.

Where did you miss God this week?

It is easy to walk through life and ignore what God is doing, feel disconnected from him, or just forget to look for him. This is a space for reflection and confession as you look back at your week.

Examples: A place where you sinned; a fight you got into with your spouse; a heart posture that was not honoring to God or others; a time you intentionally disobeyed God, etc.

Where do you need God to show up next week?

As you prepare for the week ahead, where do you especially need God to walk alongside you?

Examples: A medical diagnosis; a difficult conversation with a friend or family member; a reminder of who God is in a specific circumstance, etc.

Where do I need accountability?

Each week we will have a suggested accountability step to grow in your relationship with God in the podcast. Feel free to use that option or make it your own based on your current circumstances. Communicate this to your group and check in with each other next week.

Examples: Memorizing a verse about hope; praying for your friend; reflecting on your frustration with your co-worker, etc.

Additionally, use this space to check in on each other's regular rhythms of life based on your individual, current circumstances.

Examples: How is your mental, physical and emotional health? Are you getting enough sleep? Do you have intentional spaces of rest? How is your diet and exercise?
