Questions for the Community

Personal Reflection

1. Has COVID-19 changed your patterns of worship? How well have you adapted to all the change that has gone on?
2. Everyone has had to modify aspects of their life (job, school, routines, etc), how can you bring the things you've learned in other spheres of life into your role in the church?

Group Discussion

3. Review the Biblical metaphors used to describe the church. How does taking them together provide richer layers of understanding?
4. What has changed about church over the last year…what hasn't?
5. Have you grown in your understanding of what the church IS and what it ISN'T? Have you done some digging on your own as to how we should change/grow to meet the new demands and opportunities that face us?

Plan of Action

6. Cultivate or continue times of regular confession and assurance. If you don't know how to do this, look to the Lord and ask for help from someone you trust. Consider writing out responses during these times. (simply what you sense God is speaking over you, specific actions to take or stop).
7. Review the 4 categories of ways to engage (home, church, hood, world). Pick one specific action item and move forward with God in it!
