LAKES FREE

FAMILY CONFERENCE

How to Survive Your Family

Does your family get the best of you or the worst? If your answer is the latter, don't worry—you're not alone! Craig and Molly will use humor, personal stories, and God's Word to encourage and equip you to draw closer to each other. There is no such thing as a perfect family, but we do have a perfect example (Jesus!) of how to love, listen to, and serve those around us—especially our family! Come get practical and biblical ways to go from surviving to thriving.

Lessons From a Love Story

Don't miss this fun and faith filled love story! Craig and Molly will take you back to when they first met and use their story as a backdrop to discuss important lessons related to love, sex, and relationships. They will share humorous stories, embarrassing moments, and truth from God's Word to help teens and parents partner and be prepared for what's ahead. Come laugh, learn, and be encouraged.

Keys to the Conversation

Do you find yourself tongue twisted over the topic of sex? Allow Molly to untangle the lies and train you with truth through practical (and biblical) tools and tips to talk with your teens about sex. Whether you've been chatting about the birds and bees openly from the get-go or you feel unprepared to begin the conversation, this message will challenge, encourage, and equip you.

Monitoring the Media

In the Garden of Eden, the enemy slithered his way into Adam and Eve's presence and began a conversation filled with deception and lies. In a similar fashion, the mainstream media has done the same thing in our homes. This message will address how to recognize the schemes of the enemy and how to avoid becoming desensitized to the effect of the media and technology surrounding us.

Playful Parenting

Have you ever wished you could enjoy your kids more, but the stress and worries of parenting and life leave you with little energy and margin? Craig and Molly have been there. But they didn't stay there. One of their top values in life is FUN, and they have figured out (thanks to God!) how to strategize more play into their day. If you think you could use more laughter in your life and fun in your family, then don't miss this message of encouragement, hope, and practical pointers to play with your kids. They get their advice from the author of joy and will be sure to point you to Him!
