Erin Dobraska

Please remember Andrew and our family and his extended family as we grieve the loss of his mother. She was a larger than life personality whose mission was to love people to Jesus. She did this well. She will be missed.

Gloria Sears

My friend, Jim Gallogly, has had a recurrence of his colon cancer. He had over 2/3 of his coion removed over a year ago. A recent biopsy reveals the cancer has returned with a blockage almost completely obstructing his colon. This is very discouraging news. Please pray for a hopeful prognosis as Jim meets with his medical team next week. Thank you.

Please pray for my fiancé's father Jeff Null. He lives in CA and is in the hospital fighting COVID pneumonia. The doctors have found a small clot in his lungs. We are reaching out to anyone we can, asking for your prayers. He is a fighter and has an amazing team of angels praying for him. We ask God for his miraculous, supernatural healing, that he removes this clot, and returns him home safe to his family. We thank you in advance for your prayers

My husband expects me to go to church but when I get home he is mad and says he hares the church. Help me, I don't know what to do. I have asked him to pick a church and I get nowhere. I try not to argue. I love church, the friends I have there and I love to learn. Help

Sandy Lubberden

Just wanted to let everyone know that Norm is at home now. Our insurance denied him rehab so we had to make a choice, nursing home with skilled care or come home with home care coming in to help. Norm, of course, wanted to come home. So he came home Wednesday and he is doing so much better. Still has a long way to go. Mentally it has been great. Home care nurse will be here today. Our kids have been great also. Please keep praying, your prayers I am sure is why we are where we are.. love you all. Thanks again

Michelle Ross

I am submitting prayer request on Melissa Van Sice's behalf:
My husband's co worker Roxanne has cancer. All meds and trials have been ineffective in treating the cancer. Pray for complete healing and for the medical team to find more answers.
