

WRITE A verse-a-day

Hello COG Kids and All Brave Adults! I have a challenge for you! This is a project that lasts all year long and will help you learn Bible verses. Each month has a theme like Joy or Courage. Each theme has Bible verses to go along with that theme. I hope that not only will you learn scripture, but that it will strengthen your faith in our mighty God! You can look up the verses in your Bible or on www.biblegateway.com

Now I know that there might be days when you just have too much homework and don't get to this project...so my challenge to you is to set a goal for yourself for how many verses you can write a month. The minimum number should be your age! So if you are 8 years old, you should aim to write out 8 verses a month or more! Thankfully if you're 80 years old, there are only 30 days per month.

If at the end of 2021, you have done at least that many verses for each month, I will have a prize for you!

Happy Writing!

From,
Miss Jill
