

Global Impact for Bible Translation

**GLOBAL REACH. HIGH IMPACT. HIGH ACCOUNTABILITY.
EXCEPTIONAL INVESTOR EXPERIENCE.**

As we continue to focus on language communities that are still waiting for Scripture, the risk increases. The remaining people groups are harder to reach. They're often persecuted, marginalized, and under-resourced. Although Seed Company takes these circumstances into account, the risks associated with a world of political strife and racial and religious tensions cannot be avoided.

The Global Impact Fund is an effective way for Seed Company to spread out the risk of your investment across *multiple* translation projects while also celebrating the impact of God's Word being made available to *multiple* people groups. Instead of focusing on supporting one or two language projects, you can know your giving is touching hundreds of projects currently in our portfolio.

And that number is growing!

Together with our global partners, we are poised to start 200 new translations in 2022 and grow that to 250, 300, and 350 in subsequent years, culminating in an additional 1,100 language communities within Seed Company's translation portfolio over the next four years.

Are you ready to engage on a global scale?

GLOBAL IMPACT INVESTORS ARE:

- **Mission-focused.** They give as a part of their sense of purpose, and they find joy in helping accelerate Bible translation around the world. Although they may appreciate recognition, they rarely expect it.
- **Motivated by trust in work for the greater good.** They do not require control over how their investment is used, instead, they entrust it to God's stewards who are closest to the work.
- **Strategic.** They value a more in-depth understanding of Bible translation, insights from leadership, and movement-level reporting.

AS A GLOBAL IMPACT INVESTOR, YOU CAN:

- Transform lives by joining a global movement that's committed to the translation of God's Word into every language, in every people group, in this generation.
- Maximize the efficiency of your investment; instead of limiting yourself to progress in only a handful of language communities, you can help hundreds at a time, ensuring that emerging priorities are funded and precious opportunities don't slip away.
- Improve Seed Company's ability to recruit local believers as partners where they are needed most, equipping them with essential, timely support so they can translate Scripture for their communities.
- Increase the impact of your investment by allowing Seed Company to accelerate the work of Bible translation through the leveraging of emerging technologies and innovative methodologies.

- Stay closely connected as you receive regular updates, Key Performance Indicators (KPIs), inspiring stories, timely communication, and engagement with Seed Company leadership.

**Global Impact Investors leverage Seed Company's resources
to maximize their contribution to the Bible translation movement.**

GLOBAL IMPACT INVESTORS ALSO ENSURE:

- Resourcing and training needed by local field partners and translation teams are available as soon as they are ready to get started, based on flexible funding ready to be deployed throughout the global Bible translation movement.
- God's work is translated accurately. Capable translation team members within each local context can be recruited and trained to become Bible translation consultants where they are needed most.
- Bible translation efforts are multiplied by funding additional internships and experienced guidance for field partners who are eager to learn more about how to increase efficiency in management and translation processes.
- Ongoing innovation, new technologies, and productivity initiatives can continue to improve and accelerate Bible translation; cutting-edge software and applications, catalytic development, leadership coaching, and consulting all serve to create a ripple effect of translation efforts across nations.

As an active team member, your voice will be part of the dialogue. You'll have a closer connection to what's happening on the ground, and you will track and monitor progress along with the rest of the team. You will have opportunities to learn about, engage with, and better understand the Bible translation movement as a whole—and the role you play within it.

GLOBAL IMPACT INVESTORS WILL RECEIVE:

- Impact reports with information on all of Seed Company's work and progress.
- Inspiring stories about individuals engaged in this global movement.
- Opportunities to hear from Seed Company leadership and learn about key priorities, challenges, and successes.
- The joy of joining in God's desire for his Word to be made known in every tongue, tribe, and nation—in this generation.
