

GO TEAMS

GO TEAMS are rapid-deployment teams designed to be available to assist people in need in the Seven Cities.

GO TEAMS are comprised of Seven Cities Church members and members of the local community.

Here is a breakdown of our teams and their primary areas of focus:

The **Food Team** is available to provide food to people in need. "In need," includes a variety of things. Some examples are the acquisition of a foster child, loss of a loved one, illness, loss of income, and loss of property or means. Examples of food provide could include home-cooked meals, delivering groceries, and purchasing already prepared meals.

The **Maintenance team** is available to provide routine maintenance to homes and vehicles for people in need. This could include assisting with things such as repairing a fence, patching holes, changing motor oil, and lawn care. If a job is too big for us, we will help with connecting the person in need with an organization that can meet their need.

The **Family Support Team** is available to provide support to families in need. This could include things like providing clothing and toiletries, childcare, and prayer support in times of need.

The **Abortion Prevention and Recovery Team** focuses on helping expectant mothers, who are considering aborting their unborn child, to determine alternatives that result in saving the child's life. The team also

works with women who have had abortions, to help them find the healing and forgiveness they need.

The **Foster Care and Adoption Support Team** focuses on helping children in the foster care system, in the Seven Cities, and foster families in the Seven Cities, as well as families who are adopting kids from the Seven Cities and beyond. The goal of the team is to provide support and resources designed to meet the unique challenges that these children and families face on a regular basis. Joining the team doesn't mean you have to become a foster parent or adopt a child. There are so many more ways to help those that Scripture tells us to care for, the fatherless.

The **Special Needs Family Support Team** focuses on supporting families of kids with special needs. This is an underserved and often forgotten community that needs our love and support. Examples of ways to help a special needs family are assisting with daily chores, grocery shopping, preparing meals, assisting with childcare, and just being a friend to the family.

Services will also be provided as simple acts of kindness, where no need exists, but a desire to be a blessing does exist.

Each **GO TEAM** has two team-leaders who are responsible for scheduling servers, determining the scope of the need, assessing the team members to see who is most qualified to meet the need, and coordinating with the individual or family in need.

We hope you'll join us as we serve the Seven Cities for God's glory. Go to sevencitieschurchva.com/goteams and click "Join Now" to fill out a Go Teams Registration Form.
