

DIY : COMMUNITY TRASH CLEAN-UP

WHAT IS THE PROJECT?

Pick-up trash and litter around an area of your community to make it look nicer and help the environment.

HOW MANY PEOPLE CAN DO THIS PROJECT? - 3-15

LOCATION OF THE PROJECT

Anywhere your group decides! You can pick a certain road, parking lots, or an area with many stores/restaurants.

BEST TIME/SEASON TO DO THE PROJECT

Any time during the day.

THE PURPOSE OF THE PROJECT

Clean up areas where people walk through or drive through often to beautify it and keep it healthy!

SUPPLIES NEEDED

- Trash bags
- Disposable gloves
- Grabbers (optional)

STEP-BY-STEP INSTRUCTIONS

1. Decide where your group will pick up trash and the time frame you will meet.
2. Walk through the area and scan the ground thoroughly for trash that you may see. Wear gloves for sanitary reasons.
3. Place trash in trash bags as you go. If you would like, get some grabbers for people to use to prevent over-straining of any muscles.
4. Be very careful if you are doing this on a road if it is busy. Be aware of traffic and do not get too close to the street.
5. Once all your trash is gathered, remove it from the area and take it to a trash drop-off location.
