

## Beyond Sunday Guide – February 13-27, 2022

### BUILDING BRIDGES

#### Worship Series Synopsis

Have you ever Been Fascinated by Bridges. I have since I was a child. Have you ever looked up close at a bridge? Regardless of how it is constructed and from what materials, there are multiple points of connection.

The ends of the bridge are connected to the solid ground on either side of the span it crosses. Sometimes additional supports in the middle go down into the valley or beneath the water's surface. If the bridge is stone, the connections are made with arches, each stone leaning upon others for support. If the bridge is metal or wood, then joints of pins, bolts or welds connect the various segments. At Northway, we discover so many points of connection – in worship, in our study and fellowship times, in service to one another and the wider community. As church, its our task to be watching, listening, noticing and responding to the needs around us. Over the next three weeks we will study the how Jesus built bridges in the Gospel of Luke.

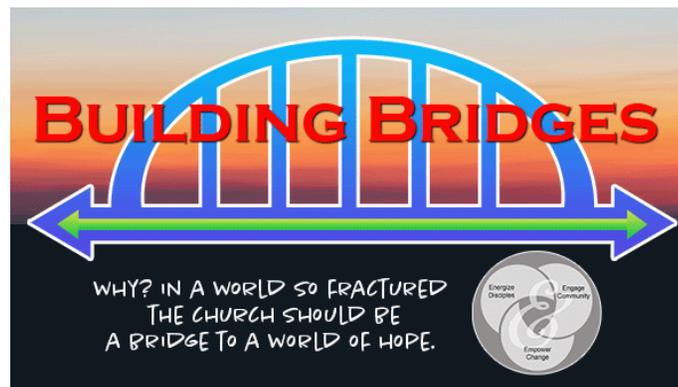

We are living in a time that is calling for the institutional church to risk building new bridges. Together we will build bridges to a vision of a church that grows:

- Intergenerationally
- Spiritually
- Vocationally – What is God calling you be/do now?
- Impact the world – beyond business as usual – NEW CHURCH ( centered – calling for unity in our Community...) In a world that is so fractured the church should be a bridge to a world of hope.
