

# Centennial Church Student Ministries COVID-19 Preparedness Plan

## For Summer Organized Outdoor Youth Activities

- The Edge will be lead outdoor youth activities with 25 or fewer people. These activities will not include person-to-person contact..
- All students and leaders must stay 6' or more apart from anyone not in their household during the entire event. Leaders will be monitoring this.
- Students or leaders who are not feeling well or have any COVID-19 symptoms cannot participate. (Symptoms include fever, cough, shortness of breath, chills, headache, muscle pain, sore throat, or loss of taste or smell. Other less common symptoms include gastrointestinal symptoms like nausea, vomiting, or diarrhea). If they or someone in their household has COVID-19, they should remain quarantined for 14 days.
- If a student or leader begins to feel sick while at our gathering, he or she should go home. If it is a student who needs to be driven, parents will be notified and the student will be distanced from the rest of the group in a safe and visible area while waiting to be picked up.
- Masks may be worn if they do not interfere with a person's health. However, masks should **not** be worn during highly active events, like bike rides, because of extra oxygen needed. Instead, social distancing is our best prevention of spread.
- Students and leaders are asked to wash their hands before coming to an event. Hand sanitizer will be available on site as well.
- Students and leaders are asked to bring their own water and any personal snacks. Food and drink, including water, will NOT be available to be shared.
- Students and leaders are encouraged to use the restroom before coming. Restrooms may not be available and portable restrooms may not be sanitized.
- Everyone is asked to cover their cough or sneeze with a tissue or elbow. Tissues are also provided on-site if needed.
- In case of emergency, an adult leader may take prudent actions commensurate with the situation, which may not include social distancing. We do not foresee this happening, though.
- If it is discovered that anyone in the group had COVID-19 and may have exposed others, we will contact all leaders and families of students that were present with information on the date of possible exposure and steps currently recommended by the MN Department of Health.

This plan will be shared ahead of time with all staff and families, and copies will be available on site as well.

If you have any questions or concerns, please contact the plan administrator:
