FROM OUR PASTORS

On the first Sunday of 2023, the sermon was titled "Sing a New Song." The 3 points of the sermon were: songs tell a story, songs reveal what's in our hearts, and old songs become insufficient over time. The big idea was "The new year is a great time to sing a new song." We definitely witnessed God bring "new" to us and our church in 2023! New people, new milestones in ministry and giving, and new life through the Holy Spirit!

One thing that marked 2023 for us was the sabbatical that you all blessed us with. Thank you, again, for allowing us that time away. It was life changing...it was ministry changing!

As we transition into 2024, momentum at our church is palpable. Each week we have more and more first time guests. The people that are being impacted by the different ministries (kids, youth, outreach, etc) are on the rise. The tangible presence of God is felt every Sunday and more and more people are jumping on board with the mission. We are poised to offer our community something different that will change the world through Jesus Christ.
