Missions

Jesus calls all of us to be missionaries! Our job is to love God and to love each other. Some missionaries move to far away places to love people and tell them about God. Some missionaries live in Alabama, go to school, play at the park and hang out with their friends. That's us!! We'll share God's love by loving on the people in our communities.

Idea 1 - Who doesn't love pizza??? Let's write thank you notes to the people who make our favorite food! We can say thank you, share our Bible verse, tell them that God loves them or draw them pictures. Collect these so that we can deliver them to local pizza restaurants.

Idea 2 - Thank a teacher. Write a note to your favorite teacher! Tell them thank you, what you loved about their class or what you miss about school. Children can take their notes home so that they can send them to the teachers directly or collect them for distribution.

Idea 3 - Send some cheer. Many senior adults in our town haven't been able to have visitors or see their family members in months. Senior adults really love children! Let's send some cheer their way by decorating cards. Draw pictures, share our Bible verse, remind them of God's love or whatever else would spread some joy. Collect cards for distribution.
