

The Fellowship: Huntington's Best-Kept Secret

Nestled along Long Island's Gold Coast, the Unitarian Universalist Fellowship of Huntington is one of the area's best-kept secrets. This castle-like structure on a lovely wooded acre was once the carriage house of the adjacent Coindre Hall mansion.

The Fellowship has served the community with all manner of events, activities, and celebrations, like the three-decade Renaissance Faire and our contemporary Last Licks Folk Music Café. We've also opened our doors beyond Huntington as a home to many elegant parties, events, and celebrations, as well as The Community Space at the Fellowship.

The Fellowship is located just minutes from the heart of Huntington Village and sits in a country-like setting with ample, well-lit, landscaped parking. The elegant architecture and the Great Lawn have been the backdrop for decades of beautiful bridal, graduation, and anniversary photos. Other delightful outside areas include a private courtyard and a roomy brick patio.

Our Spaces

The Main Hall

This grand room is best for large events and seats 200 (less if renting a dance floor). The stage is a great place to set up a band or present multiple speakers, and there's a usable grand piano. Our audio-video system allows for PowerPoint presentations on a large screen and multiple-microphone set ups. You can also livestream and record video. Since renters are doing all of the set up and break down for their event themselves, there is a great opportunity for cost savings over the use of full-service catering facilities.

The Kitchen

The Kitchen is a caterer's dream: there are two stoves (one professional); a microwave; double fridge, and a freezer. It's easily accessed by a back door with a roomy area outside that allows for professional barbecuing. The kitchen is adjacent to both the Social Hall and to the Main Hall with ample prep space and a large serving window.

The Social Hall

The Social Hall is for a more intimate group of up to 50 seated guests. Oversized windows overlook lush gardens and the room opens to a lovely brick patio. Adjacent to the kitchen, the room can be made more private using sliding dividers. There is also a pull-down screen for presentations and an upright piano.

The Gallery

The Art Gallery is adjacent to the entrance foyer, which serves as a lovely gathering area before and during special affairs. It's the perfect spot to set up bar service and a central location that offers entry to all other rooms. There are also colorful rotating art exhibits and the room opens to a courtyard garden.

*We look forward to welcoming
you to the Fellowship.*

*Please contact the office if you would like a
tour of our unique location and spaces.*
