

Day 2 – The Need for True Worship

Scripture: Haggai 2:10-12

Reflection:

The people had priests and sacrifices, but their worship lacked heart. God desires not ritual but relationship. Our worship is not a mere checklist to mark off, but a lifestyle marked by decisions that honor Christ and serve others. Regular gathering keeps our focus on Him and reminds us of our dependence on His grace.

Illustration:

A piano out of tune may still play music, but it grates on the ear. The right notes may be played but something is definitely wrong. Worship without sincerity is the same, it makes noise but lacks harmony with God.

Application:

Commit to heartfelt worship this week, private and corporate. Don't just attend; engage. Think of one small step that you can make to be more intentional about your worship this week.
