

# Day 1 — Living Stones

---

## Reflection

Believers are described as “living stones” who are being built into a spiritual house. God no longer dwells in buildings made by human hands but within His people. We are part of something greater, His church and His dwelling place.

## Illustration

A single brick by itself has limited purpose, but when placed correctly within a structure, it becomes part of something strong and meaningful. Its value is found in its placement and purpose.

## Application

Consider how you are contributing to the “spiritual house” God is building. Are you connected, engaged, and growing alongside other believers?

## Prayer

Father, thank You for making me part of Your church. Help me to grow, serve, and faithfully take my place in what You are building.
