

# Maithili Update

**OUR MISSION:** We train church planters to plant one or more reproducing churches in their local community. In order to train the church planters, we start Training Centers. At each Training Center, church planters are trained to plant reproducing and multiplying churches.

## *FROM SUFFERING TO SALVATION*

My name is Kiran Devi. I was borne and raised in a small village named Mohammadpur of Darbhanga Bihar in India. I was born in an orthodox Hindu family. My parents did all that they could to raise me as a good traditional Indian girl. We were very poor, so my father could not afford to educate me. I used to work as a domestic help to make a living. As I grew up, my father got me married. My husband and father-in-law weren't very happy because my father couldn't afford to pay the dowry that was agreed on. I was harassed and verbally abused every day because they accused me of bringing the family bad luck.

This abuse continued for many years. I then became a mother of three children. One day, unexpectedly, I was asked to leave the house because they did not want me there anymore. I was forced to leave with my children. I became homeless, not knowing what to do because we were out on the streets. I began working hard, helping people with their chores so I could provide for my children. None of our gods and goddesses could help us come up from what state we were.

During these hard times, I met Sitaram Paswan (Timothy). He was conducting a prayer fellowship at a certain house in the neighborhood. I started attending this meeting. I got to know about the love of Jesus Christ. I got to know that Jesus cares for me. Immediately, a certain peace filled my heart. I felt that my burden was lifted. After the fellowship, I shared this with Sitaram and the whole gathering prayed for me! I felt cared for and loved. I repented for the sins I had committed and received Jesus into my life. My life felt renewed. I started attending this prayer meeting from that day. God has heard my prayer and brought my husband back to me. He too has now given his life to Jesus. We, as a family, now serve God.

Thank You TTI!

### *JESUS HEALED ME!*

My name is Rup Kumari. I come from a Hindu family and belong to Pipron in Madhubani. My parents worshiped many gods and goddesses. Along with them I also worshiped and life went on like that. I became physically ill and very weak. First they took me to a witch doctor. He did all his mantras and tried to heal me, but nothing happened. Then they took me to a hospital, and the doctor gave me medicine. I took it regularly, but nothing happened. Instead, my condition got bad and then worse. I became very nervous, and my family felt so painful, helpless and worried. They tried everything possible in their capacity, and they felt like they failed in saving me.

Someone told my father that nearby our house some people run prayer fellowship through TTI. My father was thinking what to do and what not to do, because he was afraid of what society would think and say about us. But, my father was willing to do anything for me. So he took me to the prayer meeting where many people were sharing their testimonies. My mother was astonished by hearing them and was in tears.

That time my faith grew in the name of the Lord Jesus Christ, and I started to believe for healing. After the prayer got over the Pastor (one of the TTI's Paul's) came to me and asked about me, so I shared my situation. Pastor (Paul) then laid his hand on me and prayed over me and applied oil on my head. After some time I felt healing in my body. I told my parents that "**Jesus healed me.**"

My father and mother also believed in Jesus and then we started to go to church regularly. Now Jesus healed me completely, and I was baptized and now worship my Living God. My father is not bothered about what the society and the neighbors will think of us.
