Stories of Life Transformation

Krishna, a 60-year-old widow and religious Hindu, lived most of her life in accordance with Hindu ideology. She offered animal sacrifices to gods at their altars, visited temples, and performed other specific rituals as required. One day, Krishna developed a strange headache accompanied by loss of consciousness and fainting. Medical treatments proved to be unsuccessful in helping her condition, and the cures proposed by the witch doctors were expensive and useless.

Several weeks passed and Krishna went to her birthplace to meet her parents. During her visit, she saw Sukhi, a relative of hers who happened to be a TTI disciple maker. They talked, and she told her about the struggles she had with terrible headaches over the past two months. Sukhi used this opportunity to share the Gospel. She reassured Krishna that nothing is impossible with Jesus and quoted various instances from the Bible of miracles and healing. She prayed for her, gave her an audio Bible, and encouraged her to listen to the Word of God.

Krishna used the audio Bible regularly, and after hearing the truth of God's Word, she received Jesus as her Lord and Savior. She attended church fellowship the following Sunday, and as the church prayed for her healing, she was instantaneously and miraculously healed. Krishna praised Jesus with all her heart, and she continues to grow in her faith by learning from the Word of God.

Stories of Life Transformation

Sita and her family were devout Hindus. They came close to losing their lives while battling an evil spirit that took possession of their bodies. The family was tormented by demons daily and became sick one after the other. As a result, they lost their joy and peace. They spent huge sums of money on medical treatments, but it was all in vain because their bodies never responded to it. The witch doctors they visited demanded roosters to comfort the evil spirits, which proved fruitless. Despite how devout Sita and her family were toward the gods, nothing seemed to help them.

Over the next several months, Sita experienced more attacks, and she began to growl, shiver, and faint. One day, a TTI disciple maker named Anil, a relative of Sita's, visited the family. Anil learned about the problem from Sita's husband. He shared the Gospel with them, insisting that only Jesus could free them from all types of sickness and evil. Anil gave them an audio Bible, and through it, Sita and her family heard the Word of God for the first time.

As Anil prayed for Sita and her family, they each surrendered their lives to Jesus. The Spirit of God healed them instantly, and the sickness they felt disappeared. After receiving Jesus as their Lord and Savior, the family was baptized.
